- Selenium
- Matplotlib
- PostgreSQL
- MySQL Workbench
- Git | GitHub
- Docker

PROFILE

I'm a driven and motivated frontend developer. I am constantly looking for opportunities to further increase and develop my skills and knowledge. I am a fast learner and pride myself on paying close attention to details. In addition, I enjoy solving complex problems and facing new challenges that push me out of my comfort zone. I also love working with other people to accomplish a common goal, to the best of our efforts and abilities but I'm more than capable of doing tasks given to me, independently.

EMPLOYMENT HISTORY

Frontend developer at Atmo Technology at Bristol, England, United Kingdom
August — Present

Key roles:

- Building and adding new features to an online web portal using Vue 3.
- Styling online portal features using Tailwind CSS.
